# TABLEAU PROJECT – 2024

**PROJECT TITLE**

TECH DOT. INDIA

PROJECT SUMMARY

- **Project on 2024 Sales Data:** In this project, Tableau was used to apply various functions related to data, ensuring accurate conclusions for sales analysis.

- **Functions Used in Tableau:** Functions such as NUMBER, STRING, TABLE, QUICK TABLE, AGGREGATE, DATE, NULL, LOGICAL, and ANALYTICAL were utilized to provide accurate solutions.

- **Sales Data with Product and Date Information:** Key sales insights were derived from product sales, ship dates, and order dates. These were analyzed with precise time, location, and area details.

- **Tableau:** Tableau helped deliver the project with clear and accurate information through effective data visualizations.
